

## *More Than 70 Years of Innovative Education*

### *What is new at St. Anne Catholic School?*

St. Anne School is addressing the needs of all learners through a variety of proven educational methods. Students are in multi-age learning communities where teachers utilize flexible grouping techniques, differentiated learning strategies, and curriculum enhancement through technology.

### *Who is my child's homeroom teacher?*

Each learning community has multiple teachers with one teacher serving as the lead teacher for the community.

### *What curriculum is being taught?*

Teachers at St. Anne Catholic School utilize the curriculum designed by the Catholic Schools Office of the Catholic Diocese of Memphis. All lessons are driven by the curriculum and are cross checked with national and state standards. Weekly lesson plans are being posted online.

### *How is technology going to be utilized?*

Technology is being used to enhance academic instruction and to provide additional support for the curriculum. Additional programs are being purchased to facilitate this process. Accelerated Reader and K to the 8<sup>th</sup> Power are being used immediately to support all academic areas. Other programs that are available will be added and implemented throughout the year. St. Anne Catholic School is using current hardware technology that is in place at the school.

### *What is the advantage to this teaching model?*

All students are unique learners and have strengths and weaknesses. Teachers can create flexible groups that help students work on their weaknesses while allowing them to excel in areas that are strengths. Students are challenged on a daily basis to grow and develop as learners.
